## MARC fields in an authority record

0XX Control information, numbers, codes
1XX Headings (authorized and reference)
2XX Complex "see" references
3XX Complex "see also" references
4XX Cross references ("see from" references)
5XX "See also" references
6XX Note fields
7XX Linking entries
8XX Alternate graphics
9XX Reserved for local implementation

How headings are coded:

X00 Personal name heading
X10 Corporate name heading
X11 Conference name heading
X30 Uniform title
X48 Chronological term
X50 Topical subject heading
X51 Geographic name heading
X55 Genre subject heading
X80 Topical subject subdivision
X82 Chronological subject subdivision
X85 Form subject subdivision

For example, 150 appears in a MARC subject authority record, which then corresponds to the 650 in a bibliographic record.
